

CONTRIBUTING

AI in your pocket. Not a data center.

CanopyChat runs **right on your iPhone**—keeping your chats private and your AI footprint lighter.

01 Runs on your iPhone

No remote data center needed. Your chats stay on your device, not someone else's computer.

02 No cooling water

Server farms use water to stay cool.
CanopyChat keeps its intelligence in your pocket.

03 Private by default

Your history stays on your iPhone unless you choose to share it.

04 Climate-contributing

A percentage of revenue supports permanent carbon removal through Stripe Climate.

Become a Founding Member

Get early access before public launch plus 3 months of Premium during beta—and help shape a more thoughtful kind of AI.

**STUDENT-FRIENDLY
LIMITED ENROLLMENT**

CanopyChat — private, on-device intelligence • canopychat.app

Climate commitment via Stripe Climate • US beta enrollment
